

# ATHLETIC FACILITY

Coming in 2023

We are excited to begin construction of the new athletic facility on our campus! This facility will be used primarily for pickleball – the fastest growing sport in the country.

This new facility will be available to JCC members through paid reservations and programs and will include...

## 1 Five Indoor Pickleball Courts

Available to members through paid reservation

## 2 Four Outdoor Pickleball Courts

Available to members through paid reservation

## 3 Synthetic Turf

Available to members through paid programs

Housed where the old outdoor pool used to reside, our new Athletic Facility will provide members a year round destination for pickleball! In addition to the indoor and outdoor pickleball courts, the facility will also include an area of synthetic turf. This area will provide additional space for numerous paid programs and activities, allowing us to offer more options in youth sports and better meet the needs of our members. We hope to have this project complete in 2023. We thank you for your patience and patronage as we make this addition to our beautiful facility.
